

HTML Viewing Instructions

1. Download the HTML file

In the GitHub repository, open the file **sourcing-analysis-with-AI.html** and click the **Download** button (or **Download raw file**, depending on the GitHub interface). Saving the file locally is required because GitHub displays the HTML source code instead of rendering the page.

2. Open the downloaded file

Locate the downloaded **sourcing-analysis-with-AI.html** file on your computer and open it with any modern web browser, such as Google Chrome (recommended), Microsoft Edge, Mozilla Firefox or Safari.

3. Best viewing experience

Open the file on a desktop or laptop, maximize the browser window and keep the browser zoom at **100%**.

4. No installation required

No software installation, local server or internet connection is required after downloading the file. The page runs locally in your browser.

5. Navigate the analysis

Use the navigation menu on the left side of the page to explore each section of the analysis.
